Mountains Recreation & Conservation Authority
570 West Avenue 26, CA 90065
Los Angeles, CA 90065

Dear Tim:

Thank you again for the opportunity to bid on MRCA's fleet vehicles.

Attached are the following documents:

1. Enterprise Fleet Services Executive Summary of Services
2. Bid Response for 60 months, 1.5% Depreciation with light bar package NOT INCLUDED
3. Bid Response for 60 months, 1.5% Depreciation with light bar package INCLUDED
4. Full Maintenance Program detail sheet
5. Copy of Master Equity Lease Agreement

Bid response includes option to select Chevy or Ford vehicles. Enterprise has not applied the money from resale of older vehicles as down payment. If MRCA choose to do so, the monthly vehicle lease payment will decrease. Aftermarket bodies are selected based on lowest responsive, responsible bid received by Enterprise Fleet Services, and can be customized upon review.

For evaluation purposes, Enterprise depreciated the vehicles at 1.5% per month. In doing so, MRCA will have equity in the vehicles at term. Medium duty vehicles and vehicles with lower mileage application will have larger equity at term. In addition, Enterprise has depreciated the aftermarket equipment fully, which means MRCA will receive significant savings in the second generation of vehicles should it choose to transfer the aftermarket bodies onto the new chassis.

Sincerely,

Phan Duong

Enterprise fleet services

Executive Summary of Services

- Enterprise Fleet Services manages over 850,000 vehicles nationwide. Our volume makes us one of the largest purchasers of vehicles in the country, so you will share our economies of scale.
- As an independent, privately owned company, Enterprise is not tied to any one manufacturer. We deal with all of them, both domestic and foreign. With a wide variety of vehicle options, Enterprise is unbiased when making cost-effective recommendations.
- Enterprise is your transportation services specialist. We provide our customers with fleet management services that address all fleet holding costs—from acquisition to disposal, including maintenance, fuel, risk management, registration and reporting. What this means to you is that you will receive constant evaluation of your holding costs to assure minimal operating expenses.
- Enterprise utilizes the team model to service our clients. You will have a dedicated, local Account Team to facilitate your day-to-day needs. You will benefit from two to three people on your account at all times to ensure complete customer satisfaction.
- Vehicle delivery is included in our program. Enterprise will also coordinate any aftermarket upfitting with service bodies, signage, radios, shelving, etc prior to delivery, so you will receive your vehicles turnkey and ready for business use.
- With Enterprise, you can establish a line of credit for all vehicle acquisition. The benefit to you is that you will not tie up your company's existing line of credit or cash flow.
- Enterprise offers used vehicles from our Enterprise Rent-A-Car and lease return inventory. This option significantly decreases the delivered cost of the vehicle because the first year of depreciation has already happened, so you will receive relatively new vehicles with low mileage at a substantial discount.
- Enterprise offers a Full Maintenance program that includes all major repairs and preventative maintenance, which is fixed and budgeted for the term. What this means to you is that there are no surprise repair expenses and it is inflation proof.
- Customers will obtain advice and assistance from Enterprise in vehicle and equipment selection resulting in better resale and lower per-mile cost.
- Enterprise can handle the complete disposal transaction, including picking up the vehicle and disposing of it anywhere in the U.S.
- Enterprise will provide a consolidated monthly management report consisting of a single invoice for all programs, including lease payment, full maintenance and insurance.
