MEMORANDUM

TO: The Governing Board

FROM:  Joseph T. Edmiston, FAICP, Hon. ASLA, Executive Officer

DATE: May 6, 2009

SUBJECT: **Agenda Item V(j): Consideration of resolution authorizing augmentation of the contract with Dudek and Associates, Inc. for land use, environmental and California Coastal Act planning at King Gillette Ranch, unincorporated Los Angeles County.**

Staff Recommendation: That the Governing Board adopt the attached resolution authorizing augmentation of the contract with Dudek and Associates, Inc. for land use, environmental and California Coastal Act planning at King Gillette Ranch, unincorporated Los Angeles County in an amount not to exceed \$30,000.00.

Background: One of the most stunning locales in the Santa Monica Mountains, 588-acre King Gillette Ranch is situated in the heart of the Malibu Creek Watershed (Santa Monica Bay watershed), by the confluence of five major tributaries, and adjacent to Malibu Creek State Park. This scenic parkland at the lower end of the Las Virgenes Valley is a haven for larger mammals of the Santa Monica Mountains. At the same time, it offers a rare unspoiled view of California's rich archaeological, cultural, and historic resources, including a Chumash settlement, and nationally significant structures designed for razor magnate King C. Gillette in the 1920's by Wallace Neff, architect of California's Golden Age. The Mountains Recreation and Conservation Authority (MRCA) manages the park in cooperation with the Santa Monica Mountains Conservancy, the Santa Monica Mountains National Recreation Area unit of the National Park Service, and California State Parks.

Under the existing contract and an initial amendment, Dudek has been working with MRCA staff and the King Gillette Steering Committee on long range planning for the property. Staff recommends augmenting the contract with Dudek to continue assisting in assessing land use opportunities and development constraints for King Gillette Ranch. Dudek will help coordinate the subconsultants preparing special studies necessary for the environmental documents. Additionally, Dudek would facilitate the project's processing requirements consistent with the applicable environmental policies of the California Coastal Act. The proposal from Dudek is

attached.

Consideration: The contract amendment will not exceed \$30,000. Funding for this contract would come from task agreement with the National Park Service for King Gillette Planning.
