MEMORANDUM

TO: The Governing Board

FROM: 
Joseph T. Edmiston, AICP, Executive Officer

DATE: February 1, 2006

SUBJECT: **Agenda Item VI (m): Consideration of resolution authorizing a drain and road easement to the County of Los Angeles Department of Public Works on Piuma Road, Culvert Marker 2.81, unincorporated Los Angeles County.**

Staff Recommendation: That the Governing adopt a resolution authorizing a drain and road easement to the County of Los Angeles Department of Public Works on Piuma Road, Culvert Marker 2.81, in unincorporated Los Angeles County.

Background: Los Angeles County Department of Public Works has been attempting to remedy longstanding culvert and bank erosion problems on and under Piuma Road, adjacent to MRCA parkland. The problems were particularly exacerbated in the winter of 2005. The County's permanent remedy requires them to seek an easement from MRCA and other landowners to install and maintain drains and appurtenant structures. Staff has already provided an entry and construction permit for the emergency storm repairs; the County now wishes to ensure its ability to maintain its structures. (See attachment.)
