**ADDENDUM # 01 issued January 14, 2022**  
**Mobile/Portable Radios & Support Equipment**  
MRCA Request for Bids #1-5

This addendum forms a part of the contract documents and modifies the bidding documents issued and advertised on January 7, 2022 as noted below. All bidders must acknowledge receipt of the Addendum on company letterhead. Failure to do so may result in the bid being deemed non-responsive.

The Addendum consists of **6** pages total, with **3** pages of revised bid forms.

**A. CHANGES TO BIDDING REQUIREMENTS:**

1. Vendors are no longer required to bid on all items to be eligible.
2. MRCA may award multiple contracts. MRCA will make separate determinations of lowest responsive and responsible bidder for the BK, Kenwood, and Harris brand equipment, respectively. All elements requested from each respective supplier/brand must be included for a bid to be deemed responsive. There is no change to the requirement that the vendor must provide setup and programming of all units and must have the ability to service units.
3. Remove and Replace the Schedule of Bid Items (1 page) with attached Schedules of Bid Items (3 pages):
  - a. Schedule of Bid Items for Item 1. BK Radios
  - b. Schedule of Bid Items for Items 2. Kenwood Radios and 3. Kenwood Repeaters
  - c. Schedule of Bid Items for Items 4. Harris Radios and 5. Harris Warranties.

Vendors who are bidding on all three suppliers/brands must submit three separate forms. Do not combine bids for multiple brands on a single form.

4. Add to the Bid Terms section, page 1, section listing items that must be submitted, the following:  
"5. Addendum receipt on Company letterhead."

**B. QUESTIONS FROM BIDDERS & RESPONSES**

1. Will you accept partial bid, we are not a dealer for Kenwood or Harris.  
**Yes, the bid has been revised so that Vendors are not required to provide all items listed.**
2. Are you purchasing all three manufacturers searching for the pricing for the right fit for you? If choosing one radio only then skip question #3.  
**MRCA intends to purchase all items listed, from all three manufacturers.**
3. The RFB includes an allowance for 25 warranties:
  - a) For which radios?

**The requested warranties are for Harris XL-200P.**

b) Is the remainder of the warranty cost, above \$200 allowance; to be added to the quoted price of the radio?

**Yes.**

4. How many Zones, channels, tones etc will need to be programmed? That information may be needed beforehand to bid an appropriate price per radio unit.

**Code plug will be comparable to the LA County TMAC.**

5. Can a vendor submit pricing for just one item of the four items requested?

**Yes, the bid has been revised to allow this.**

6. Regarding item #4, L3 Harris multi-band mobile radios; is MRCA requesting an XL-200P portable radio even though the title states "mobile" (vehicular) radio – correct?

**Correct, the spec is for portable radio XL-200P.**

7. If MRCA requires full spectrum: VHF, UHF, 700-800MHz in-vehicle mobile the L3 Harris XL200M mobile radio is available and capable; does the L3-Harris XL200P radio need to be delivered ready to operate out of the box in P25 trunking phase II (TDMA) mode?

**Capable for P25 upgrade.**

8. Does the XL200P radio to arrive equipped with P25 encryption?

**No.**

9. Is a noise-canceling speaker microphone, individual charger, antenna, battery (lithium Ion 4800MAH) and belt clip to be supplied as part of the radio package?

**Yes.**

10. Is the XL200P to be delivered and ready to operate in LTE mode or just capable of being upgraded to LTE for an additional cost at a future date?

**Capable of being upgraded for LTE.**

11. If the radio is to arrive LTE ready, please select which carrier: Verizon, AT&T, FirstNet – is a SIM card(s) to be provided or will MRCA supply?

**None/not required.**

12. Can MRCA please supply a list of Transmit/Receive frequencies that are to be programmed into the XL200P radios?

**Code plug will be comparable to the L.A county TMAC.**

13. The condition in the bid is for LTE as a requirement for the portable Harris radios, will substitutions be considered without LTE?

**Capable of being upgraded for LTE**

14. Also, will you please provide me with information on the Troy Faceplate?

**Troy faceplates for Kenwood KCH-20RM.**

15. The bid is requested to be delivered by 11 AM on January 19<sup>th</sup>. Can a digital version be submitted by the deadline with a hard copy to follow?

**No. Bids must be submitted on paper, in a sealed envelope per the terms of the Request for Bids. There is no way to ensure that an emailed bid remains sealed until the bid opening.**

16. The RFB requests that the bid be filled in ink. The upcoming holiday (MLK day) combined with the covid 19 work from home restrictions make the wet ink requirement challenging to submit on time. Can the required blanks be filled digitally? **Yes, printer ink counts as "ink".**

- C. Clarification or any other notice of a change in the bidding documents will be issued only by the OWNER, MRCA, and only in the form of a written Addendum, transmitted by fax, e-mail, or registered mail to all who have registered as an interested bidder, or posted on MRCA's website. Any other purported Addenda are void and unenforceable.
